

Dravyaguna Vigyana

Dravyaguna vigyan is a branch of Ayurveda which deals with the medicinal properties of medicinal plants. It includes all the macroscopic and microscopic structures of plants. The knowledge of these medicinal properties is useful in clinical practices also. Use of Ayurvedic medicines is increasing day by day, even in the first world countries. Need increasing the efficacy of the medicines is the need of the hour. It is possible only if Vaidyas with good knowledge of Medicinal Plants are available.

Now days there is increased global demand of herbal medicine, and hence there is a lot of scope to have a centre of excellence of herbal medicine that cater not only to Ayurveda and its practice but also sub-serve the purpose of R & D and standardization needs of Ayurveda Kalpas.

Department of Dravyaguna in RJS Ayurved Medical College provides facilities to BAMS students – Dravyaguna lab, Dravyaguna Museum, Herbal garden situated over 4000 sq. mtr. land, analytical laboratory.

Dravyaguna Museum & Practical Hall

The departmental museum is where the students get hands on experience of the dry specimens. There are total 141 dry specimens, 29 Charts and Dravyaguna Lab containing Instruments / Equipment required as per Norms. A special thing to mention here is that, 7 Models of Dept. are prepared by 1st BAMS students. There are total 29 charts.

Herbal Garden

The Department boasts of a Herbal garden spread is over more than 4000 sq. mtr. area. The Herbal Garden includes maximum herbs of the syllabus of UG and in academic year we are trying to get some of rare species. Introduction and identifying the herbs in their natural form is a very much important to students to get the knowledge. The departmental herbal garden is equipped with more than 150 species and about 425 medicinal plants maintained by gardener.

Departmental Library

The department possesses its own in-departmental library. All the books regarding the study matter of UG are available in the departmental library. Total 100 books are available in Departmental Library. Books of Ayurvedic text as well as the modern aspects such as pharmacology, pharmaceuticals, phytology, etc. are all available here. Also there are other reference books are also available in Dravyaguna in the library.
